

UP-4 Retro 250

DAMP LOCATION LISTED AVAILABLE

The UP-4 Retro 250 has the Modern look of the UP4 Ultra but at a more economical cost. The Retro 250 is equipped with a Patented "Cool-Spot"[™] "Wave Faceted"[™] reflector system and a long life 2000 hour 250 watt Halogen single ended T-10 lamp. This New Technology reflector optics design provides a smoother, brighter beam field with the heat difused more evenly providing a longer gel life than any other standard fixture. Perfect for Theaters, Bands, Churches, or anyone on a budget. The housing and yoke is made of UV Stabilized LEXAN[™], an Engineered Thermoplastic. The Damp Location version has stainless steel hardware and Outdoor Rated Electrical wiring that makes this unit virtually weather-proof. Available in red, blue, green, amber, magenta, black, white, clear, neon pink, and neon yellow.
